## High Voltage Resistor ( )

[Coating Color Black](#)

[Coating Class Style](#)

### Application:

- Power Rating: 0.5W, 1W, 2W.
- Working Voltage: 1KV ~ 22KV.
- Resistance Range: 1M ohm ~ 2000M oh
- Tolerance: J:±5%, K:±10%

| Power Rating | Max Working Voltage | Resistance Range( $\Omega$ ) | Resistance Tolerance |
|--------------|---------------------|------------------------------|----------------------|
| 1W           | 10KV                | 10M ~ 100M                   | J:±5%, K:±10%        |
| 0.5W         | 10KV                | 20M ~ 200M                   | J:±5%, K:±10%        |
| 0.5W         | 10KV                | 1M ~ 20M                     | G:±2%                |
| 0.5W         | 10KV                | 2M ~ 200M                    | J:±5%, K:±10%        |
| 0.5W         | 1KV                 | 2M ~ 10M                     | F:±1%, G:±2%         |
| 2W           | 13KV                | 10M~500M                     | J:±5%, K:±10%        |
| 2W           | 15KV                | 10M~100M                     | J:±5%, K:±10%        |
| 2W           | 22KV                | 10M~2000M                    | J:±5%, K:±10%        |
